Sean Sullivan, Omicron Delta Epsilon,
International Honor Society for Economics

Profile

Through our strong link to the Economics Department we become the student faces of Economics. This semester we strive for greater club involvement as well as greater opportunities for interaction with faculty. With the devotion of the Economics Leadership Team and the club members we will be successful in achieving our goals.

This semester we will achieve our goals (greater club involvement & greater interaction with faculty) by:

1. Economics Club dinners.
2. Economics Movie night.
3. Holding/attending study sessions for Economics students.
5. Working the Knoxville Economics Forum with Dr. Marianne Wanamaker.
6. Hosting an Economics Department breakfast for faculty and staff.

One of our largest achievements in history is our success in winning the nation-wide iOme Challenge!
